734.845.1958

I have over 14 years experience as a designer & web developer. I specialize in creating bespoke, accessible websites & products that are not only beautifully crafted, but also truly delightful to use.

Experience

One Design Company
2016 — Present
Principal Developer, Interactive Design

Played a pivotal role in defining studio processes and best practices for IA, UX design, prototyping, art direction, and development for websites across diverse sectors — including seed stage biotech companies and art museums.

I also acted as an active member of the the studio's accessibility and design systems committees.

Nelson Cash
2014 — 2016
Senior Designer, Senior Developer

Collaborated with a small team to design and develop websites for a wide array of projects for Google — from internal single page applications, to consumer-facing websites featured on Google.com's homepage.

During my time here, I also started an experimental lab during our "freestyle fridays", which launched 2 viral websites — Make it Stranger and MyLaCroix.

The Noun Project
2013 — 2014
Senior Product Designer, Senior Product Developer

As an integral contributor to a small, agile team of designers, developers, and product managers, I designed, prototyped, and developed new features for the world's largest visual language.

Simple Honest Work
2012 — 2013
Senior Designer, Senior Developer

Designed and lead web development for clients like UNICEF, The Noun Project, New America Foundation, and the West-Eastern Divan Orchestra.

QLTD
2010 — 2012
Designer, Developer

Designed and developed websites for clients like SIGGRAPH, The Kresge Foundation, One Pause Poetry Foundation, Wayne State University Press, and other local small businesses.

Education

Eastern Michigan University
2007 — 2011

Bachelor of Fine Arts with a concentration in graphic design. Received multiple scholarships and recognition awards.
